

Chicken eggs

A farmer made a tally of the number of eggs her chickens laid in one week.

She put her results into a bar line chart.

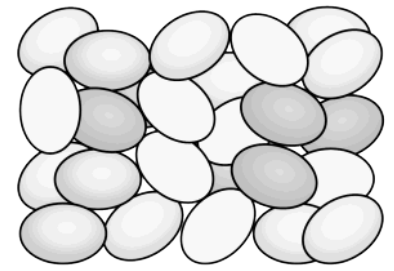

- 1) How many chickens laid 3 eggs in a week?
- 2) How many chickens laid 5 eggs in a week?
- 3) How many chickens laid 8 eggs in a week?
- 4) What was the largest number of eggs laid in a week? How many chickens laid this many eggs?
- 5) What was the fewest number of eggs laid in a week? How many chickens laid this number of eggs?
- 6) What is the mode, or average of the eggs laid in a week?
- 7) How many chickens laid more than 6 eggs?
- 8) How many chickens laid fewer than 4 eggs?
